

**IF IT'S GOT AN AIRPORT,
A DOCK OR A ROAD,
WE DELIVER TO IT.**

**AND WE USE THE TERM
ROAD VERY LOOSELY.**

THAT'S WHY WE ARE ALWAYS ON.

There are no borders anymore. Those lines are just there to help you clearly define marketplaces. That's the world we live in today. A global economy where the universal language is commerce.

So you need a shipping company that can do it all—the global network of Estes Forwarding Worldwide.

No matter where you want to ship, we can take you there. Any destination, any volume, any handling requirement.

Our network offers you the unparalleled flexibility of international air, ocean and ground transportation. And the peace of mind of knowing that no matter how many different ways your shipment travels, or how many borders it has to cross, you only have one number to call to track it all. The number of your account management representative at EFW. That person will be with you every step of the way. Across any ocean and down any road, even the ones that should be called paths.

It's the kind of personal relationship that's rare today. But no matter how much the world changes, this will not. Because we are always on.
