

**BORDERS ARE JUST LINES  
ON A MAP TO LET YOU  
KNOW WHAT LANGUAGE  
TO DO BUSINESS IN.**

# ALL THOSE OLD LIMITATIONS TO YOUR BUSINESS ARE GONE FOREVER. SO WE ARE ALWAYS ON.

Today, the whole world is open for business. So you don't need to get hung up at some border crossing or snagged in a web of bureaucracy as opportunity passes you by.

That's why you need a shipping partner with people all over the world.

A shipping partner who knows how to speak the local language and clear the local customs.

The global network of Estes Forwarding Worldwide.

No matter where you want to ship, we can take you there. Any destination, any volume, any handling requirement. We'll be with you every step of the way, starting with pickup from any zip code in the U.S. to delivery to virtually any point on the planet.

Our network offers you unparalleled flexibility of international air, ocean and ground transportation. And the peace of mind of knowing that no matter how many different ways your shipment travels or how many borders it has to cross, you only have one number to call to track it all—your account management representative at EFW.

Day or night, we are always on.
