

June 1, 2019

To Our Valued Customers:

In an effort to continue to provide our customers with the best experience possible, we are pleased to present our updated fuel surcharge program for June 2019.

In May 2019, the Department of Energy USGC jet fuel price averaged USD \$1.999 per gallon; the DOE weekly on-highway National diesel fuel price was USD \$3.162 per gallon. Taking into consideration these prices, the following fuel surcharges will apply in the month of June.

Premium – \$0.21 per lb.

Economy – 23.00%

These applied fuel surcharges are calculated based on the Premium and Economy scales, attached.

Premium FSC applies to all Airfreight/Expedited shipments and all services to/from Hawaii, Alaska and Puerto Rico. Such surcharges are determined by the US Department of Energy Gulf Coast jet fuel spot market, available at http://www.eia.gov/dnav/pet/pet_pri_spt_s1_d.htm. Economy FSC applies to all other Economy Service shipments and is based on the U.S. Department of Energy's weekly on-highway national diesel fuel market, published at http://www.eia.gov/dnav/pet/pet_pri_gnd_dcus_nus_w.htm.

We appreciate your business and continued support and remain committed to providing you with the best value in the market through service excellence and competitive pricing. Please contact your EFW account representative or service station should you have any questions concerning these changes.

Sincerely,

Jarrett Williams
Senior Vice President of Finance and Administration
